george carlin

Perhaps one of the finest comedians that ever lived, George Carlin defined the word counterculture as we know it today. Pushing the First Amendment as Lenny Bruce did, Carlin always had something to say and if you were easily offended by what he said he would advise you to "GO THE FUCK OUTSIDE". I hope the First Amendment didn't w/ him. I will miss Georgie Porgie...

Example

Most people are not particulary good at anything. George Carlin

If someone loves you and they leave and don't come back, it was never meant to be. If someone loves you and they leave and come back, set them on fire.

I'm completely in favor of the separation of church and state. My idea is that these two institutions screw us up enough on their own, so both of them together is certain death.

kate

Kate is unique. She is not like your average girl. She is genuine in everything she does. Her loyalty is phenomenal and you never have to doubt her. Kate's kindness inspires others to do good things. Kate is not weak though. She is a strong independent girl who can get herself through anything she sets her mind to. She is hilarious! Sometimes she has a dry sense of humor, and other times she just knows to how make people laugh:). She tends to be random at times...really random. But she knows when to be serious. Kate has been told by many that her advice changes the way they look at life. Kate has a very bubbly personality that makes anyone comfortable talking with her. She also has beauty. A nice figure with luscious hair and sparkling eyes. When she smiles, it lights up a whole room. Her intelligence is also above average. She is able to learn quickly and apply. Kate has many good personality traits, but she is not self-conceited. As a matter of fact, she has some downers too. Sometimes Kate can be a little too sarcastic. That can offend some people, but she apologizes. She also has a tendency to procrastinate from time to time. But she still manages to get everything done. And of course, the one word that is the legit definition of Kate. Pure

Example

Emma: psh Kate thinks she's soo cool, I'm surprised she has any friends. Angela: Hey! Kate is a wonderful person. Stop being jealous.

steins;gate

Steins; Gate is an amazing sci-fi/drama anime about time travel. It follows the story of 18-year-old Okabe Rintarou, a self-proclaimed mad scientist who refers to himself as Hououin Kyouma. He, "super hacka" Hashida Itaru, and childhood friend Shiina Mayuri comprise the Future Gadgets Lab. Quite by accident, they discover that their Future Gadget #8, the Phone Microwave (Name Subject to Change), can send text messages to the past. They start sending more messages, radically changing past events (the butterfly effect) and eventually leading to distastrous consequences.... You should watch it. It will blow your mind.

Example

Okabe Rintarou quotes:

"I'll say it once more. I am the mad scientist, Hououin Kyouma!"

"No one knows what the future holds. That's why its potential is infinite."

"This is the choice of Steins; Gate."

"El Psy Congroo."And of course, the very best one...

(in heavily accented English) "Hey mister, I am mad scientist. It's so COOOOL! ... sonofabitch."Freakin' awesome.

From the visual novel and anime/manga series Steins; Gate, where the term is used as a name for the ideal World Line.

iq

Something most people on Urban Dictionary don't have.

Example

His IQ is about that of someone who uses Urban Dictionary.

Example

I'm not sure what an IQ is, but Momma said mine is really low. I think it has something to do with my leg braces. I miss Momma.

Example

I have scored well over 140 on recognized IQ tests scored by 'certified psychologists' while half asleep, but don't give a shit. A truly intelligent person does not brag, but rather teaches, and realizes that a 'high IQ' means precisely dick, just as well as many other qualifications in modern society such as degrees, etc. Many feel intimidated by the real scope of intelligence thus they try to tame it and make it comprehensible on a 'normal' level rather than to truly develop it within themselves and increase the breadth of their perspective.

Deleted User 11/9/2019 7:04 AM .urban intelligence

intelligence

Something severely lacking on Urban Dictionary, for god sake at least know what you're talking about before you post a load of crap on here.

Example

The eiffel tower was built by eskimos as a present for Jesus!11!! He then changed his name to Bob Dylan and formed an emo band!1!

No form of intelligence was used in the above statement, but you'll probably believe it because you read it on the internet.

Example

Intelligence:

"It is not what enters into the mouth that defiles the man, but what proceeds out of the mouth, this defiles the man." - Matthew 15:11

You don't have to be a Christian to appreciate such wisdom. =)

Example

Man, I possess so much intelligence. I mean, just look at that monsterly definition.

lovecraftian

Said of a creature, it means something that merely knowing it exists can wear away at ones sanity, and seeing it can be even worse. Such creatures are usually older than humanity, from another planet or dimension, or both. They are not, in the classical sense, evil, but view humans as humans view ants. Stereotypical Lovecraftian creatues are slimey with lots of tentacles.

Said of a story, it can mean several things:

- 1) A story where the protagonist stumbles upon Things Man Was Not Meant To Know, and ends up telling the story either from within an insane asylum, or from a journal he kept that is discovered after he mysteriously disappears.
- 2) Any story containing a Lovecraftian creature.

Example

The monster from "The Thing" is pretty Lovecraftian.

Example

If someone ever uses more than 5 adjectives to describe the colour green, they are said to be one hella annoying Lovecraftian pig-fucker.
